Does Uniswap Have a Tech Support Phone Number?

One of the most common questions new users ask is whether Uniswap has a dedicated tech support phone number they can call for help. The simple answer is ****no — Uniswap does not provide customer service via phone [+1-801-730-9692] or [+1-801-730-9692]****

Uniswap is a ****decentralized protocol****, meaning it does not have a centralized company or call centre handling support queries. There is no official customer service team you can reach out to over the phone. Instead, support for Uniswap is provided via online resources, documentation, and community channels.

That said, it's very important to be cautious because there are many scams where fake phone numbers or websites pretend to offer "Uniswap support." Never trust a random number claiming to be Uniswap tech support — the protocol itself will never call you or ask you to call anyone.
